A Hungry Baby

A little kitten **wobbles** away from its mother. It sees a bug. The kitten jumps to get it. It misses. But that's OK. There are other things to chase. But soon the kitten needs its mother. It's hungry!

wobble: to move from side to side in a shaky way

Growing Fast

Newborn kittens can't see or hear. They lie near their mothers to stay warm. But kittens grow fast. After a few days, their eyes and ears open. They can see and hear their world.
