Chapter 1

Is a Centaur Right for You?

A centaur runs through a park on powerful legs. It leaps into the air. Using its human arms, it grabs a Frisbee. The centaur then whips the Frisbee back to its owner.

Centaur is an awesome pet. They're way better than dogs. You don't play fetch with centaurs. You play catch. You don't have to take them for boring walks either. You can ride them instead! Having a centaur is fun. But it takes work.

Chapter 2

Understanding Your Centaur

Before you get a centaur, you must understand them. Centaurs are horses with human **torsos**, heads, and arms. They are large and very strong. These creatures come from a magical land. So they might find your home boring. Bored centaurs can be trouble. They might destroy your belongings. Or they might prank you. You'll need to play with your centaur to keep it from getting into trouble.

Centaur's like playing with other animals. Your centaur should get along with any pets you already have.

Wild Roots

There are many **ancient** stories about centaurs. These stories say centaurs are wild, rough troublemakers.

But that's not always true. Yes, some are wild. But many centaurs are gentle. Most are wise. Get to know your centaur. You might be surprised by how much you have in common.
