Dear Reader,

To be honest, the author's
manuscript wasn't supposed to
become a book. There was a
horrible mix up. There was a
reading, if you want. You can keep
any of these suggestions seriously.

Sincerely,
a very sorry editor

Chapter 1 A VACATION GONE WRONG

You're flying to your **tropical** vacation. You imagine the white, sandy beaches. Palm trees will sway in the breeze. Waves will splash against the sand. It'll truly be paradise on earth.

Too bad you didn't get there! Your plane had engine trouble. It crashed on a **desert** island. It could happen, you know. You could end up stuck on a desert island!*

**Editor's Note: It's highly unlikely this will happen to you.*

Time to Survive!

A desert island can be a scary place. There's nowhere to go. There's nothing to eat. And the odds of surviving are slim.

Thankfully, you're prepared. You've got a survival guide you never thought you'd need. It's time to survive being stranded on a desert island!

Islands for You to Get Stuck On

- Clipperton Island
(in the Pacific Ocean)
- Great Blasket Island
(in the Atlantic Ocean)
- Henderson Island
(in the South Pacific Ocean)

Survival List

Essential Sandcastle
Building Tools

coconut bucket
water
dreams
lots and lots of sand

Chapter 2

YOUR NEW HOME

There's no one else on the island.
That makes you king or queen.
As royalty, you'll need a castle. With a
little water and sand, you can build
the perfect home.

Your castle will protect you from
the sun. It'll be a place to hang out too.
And the best part? You can build
a sandcastle inside your sandcastle.

The world's largest sandcastle was
more than 40 feet (12 meters) tall.
