## CHAPTER 1

# A Wild Ride

A motorcycle waits at a red light.

The rider **revs** the engine. The light changes, and she takes off. The bike roars. It's soon out of sight.

**rev:** to cause an engine to run more quickly

### Fast and Light

Motorcycles are small vehicles. They have two wheels and a motor. They're lighter than cars. They hit top speeds faster. Some people use them for road trips. Others race them.
